Colors: Black, White, Royal, Scarlet, Navy
No.in pkg. Pair

PRODUCT HIGHLIGHTS

Foam: Closed cell vinyl nitrile provides superior shock absorption and impact protection (3 to 4 times greater than the EVA foam used by many competitors). Resists compression set; quickly returns to original shape.

Face Material: Heavy duty poly/spandex - highly durable, stretches with movement, returns to original shape.

Lining/cuff Material: High quality nylon/spandex - comfortable against skin, stretches easily with movement, returns to original shape.

Elastic: Heavy duty elastic holds pads securely in place, stretches easily, and will not deteriorate or lose its elasticity. Twice as thick as elastic used by many competitors.

Heavy Duty Thread and tight precise stitching ensure durable seams.
